

WearGuard™ D-A FQL CVO (Cooker Valve Oil) is designed for use in cookers and sterilizers where high temperatures and high humidity may be present. **WearGuard™ D-A FQL CVO** will provide protection for operating valves, bearings and slideways in wet food applications.

WearGuard™ D-A FQL CVO will provide excellent lubrication for these conditions.

Applications

- Manzel Lubricators
- Microvalve systems
- Flooded live steam

Packaging

- Tote
- Drum
- Quarter Drum
- Pail

Typical Properties

WearGuard™ D-A FQL CVO Cooker Valve Oil	ASTM Test	WearGuard™ D-A FQL CVO
ISO Viscosity Grade	D2422	220
Viscosity, cSt. 40° C	D445	210
212° F	D445	19.6
Pour Point	D97	-32° C
	D97	-31° F
Flash Point	D92	226° C
	D92	504° F
Foam Sequence I, II, III	D892	Nil
Base Oil		Mineral Oil
